

# Orenda International Review

**Orenda international:** Why I left it and never looked back and what can you learn from my experience with orenda international.

Simple facts:

Orenda is an mlm network marketing company.

Orenda is a legal company and not an mlm scam.

This was the first company that I got involved with and I took it seriously.

I was so passionate about their products because they helped me with my energy and helped my dad with his pains.

I did make some money initially then I lost all the money that I gained trying to market the company.

So, what was wrong with this company and why I left it and never looked back?

**1-No marketing system:** They don't teach you any marketing tactics or online marketing. The only way of doing the business is being on the roads putting flyers!  
I did acquire my marketing skills afterwards but I refused to market Orenda and this is why:

**2-I stopped getting my checks as soon as I stopped working!**

Most network marketing companies do not offer a [residual income business opportunity](#) and orenda international is one of these. They want you to work and when you stop working they have plenty of 'legal' ways to cut off your check. The way they escape legally from paying you is due to small words and poisons they throw in their policies and compensation plans. Obviously, they never tell you about it. They will tell you that we have the best compensation plan in the industry; the leaders have high integrity, etc... The regular big mlm lies.

The official word used legally to take away your checks is called: "**Breakaway**"

Most mlm companies used breakaways in their compensation plans to trick you so they look like they have a good comp plan.

So, obviously I did not want to get anyone in this company anymore because I want to get my team in a good company that offers them a future.

What are the other problems with orenda international?

1-They guide with **hypes and lies**: They have these conference calls where they get two people making money with the company claiming they are making huge amounts of money in short period of time but no one would tell you how they did it. They did not go putting flyers from door to door I will tell you that!

2-They use **front overloading**: They use all techniques that make duplication difficult for most people. They want you to sell people \$1700 of products when they join. That would scare most of people, and most people get stuck with lots of products they can not use or sell in a short period of time.

If you want to learn how to pick an mlm network marketing company that doesn't rip you off and teach you real marketing techniques, get educated before you join orenda international or any other network marketing company.

I recommend you to read [Success in 10 Steps before you join orenda international](#)
